

Kentucky Comprehensive Transition and Postsecondary Programs for Students with Intellectual Disabilities

Program Brief: Student Financial Assistance

Comprehensive Transition & Postsecondary Programs (CTPs)

CTPs were created by the Higher Education Opportunity Act (HEOA, 2008). They support students with Intellectual Disabilities (ID) who want to continue academic, career, or technical instruction in higher education to better prepare for competitive integrated employment and independent living. CTPs:

- use person-centered planning to help students identify and explore career goals, which may include paid work and unpaid work-based experiences
- facilitate the social and academic integration of students on a college campus
- provide support to navigate all elements of college life, including admissions, coursework, work experiences, and extracurricular activities

CTP Program Eligibility

Students enrolled in an approved CTP must have a documented ID, as defined by the HEOA. This means a student:

- With a cognitive impairment characterized by significant limitations in:
 - intellectual and cognitive functioning; and
 - adaptive behavior
- Who is currently, or was formerly, eligible for a free appropriate public education under the Individuals with Disabilities Education Act

Student Financial Assistance

Federal Financial Assistance: Students with a documented ID enrolled in an approved CTP may be eligible for assistance through the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, and Federal Work-Study programs. Students must complete the Free Application for Federal Student Aid (FAFSA) in order to determine financial need and eligibility for federal student assistance.

State Financial Assistance: Students are eligible for a Kentucky Educational Excellence Scholarship (KEES) if the student:

- Received an alternative high school diploma; or
- Has an ID and attended a Kentucky public high school; and
- Enrolls in an approved CTP in Kentucky, [KRS 164.7882](#)

KEES amounts for students enrolled in an approved CTP:

- \$500 if enrolled in at least six (6) hours in an academic term; or
- \$250 if enrolled in less than six (6) hours in an academic term.

Note: Students who also qualify for KEES earnings from eligible high school coursework may receive those funds in addition to KEES CTP award amounts. No further action or application is required for the student to receive KEES.

Frequently Asked Questions

1. How do students interested in a CTP apply for federal student financial assistance?

Students interested in enrolling in an approved CTP should complete the FAFSA each year at www.studentaid.gov and indicate which college(s) they want information sent.

2. The FAFSA asks about high school completion status. How do students answer this question and will this affect students' eligibility for financial aid?

Students with any diploma or credential other than a standard high school diploma (e.g., alternative high school diploma, GED, no diploma) select "none of the above". This answer will not affect eligibility for student aid if a student is enrolled in an approved CTP.

3. What does it mean if a FAFSA has been selected for verification?

In some cases, the U.S. Department of Education requires that the financial aid office verify the accuracy of certain information reported on the FAFSA. The school may request additional documentation from the student or parents to complete this review before federal student financial aid can be finalized. Being chosen for verification does not suggest that an error was made on the FAFSA, and financial aid counselors can support students throughout the process.

4. What do students enrolled in a Kentucky CTP need to do to keep their federal student financial aid?

As outlined by college/university satisfactory academic progress (SAP) policies for students in CTPs, students must maintain SAP and meet the basic federal student aid eligibility requirements. Students must re-apply each year for federal aid by filing the FAFSA.

5. How are students enrolled in a Kentucky CTP awarded their KEES funds?

College financial aid offices work directly with the statewide KEES coordinator at the Kentucky Higher Education Assistance Authority to report enrollment and request the KEES CTP awards for eligible students.

6. Can KEES funds be awarded for summer terms?

No. KEES funds can only be awarded for fall and spring terms.

7. How do students enrolled in a Kentucky CTP continue to qualify for KEES awards?

All that is necessary to qualify for renewal of the KEES CTP award is for a student to maintain enrollment in the CTP and maintain satisfactory academic progress as outlined in the SAP policy. Students are eligible for KEES CTP awards for a maximum of eight (8) academic terms.

8. Does receiving financial aid/grants to pay for college affect Social Security benefits for CTP students?

Grants, scholarships, fellowships, or gifts received for educational expenses are not counted as income or resources by Social Security if they are used to pay for educational expenses in a timely manner. To learn more about Supplemental Security Income (SSI) when students turn 18, including how grants and scholarships affect SSI benefits, visit: www.ssa.gov/pubs/EN-05-11005.pdf

There are currently three approved CTPs in Kentucky and one application in process.
